☐ DECLASSIFIED

Class. CHANGED TO: TS S C

Auth: EDA Memo, 4 Apr 77

Date: EDA Memo, 77

Date: 13 MAR 1978

17 July 1958

MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Report #28
Assessment and Evaluation Staff
9-15 July 1958

1. Chief, A&E conducted a training session with visitors from a foreign state. The training program was concerned with selection of personnel. Apparently, the material covered was what the visitors were interested in, since Chief, A&E was invited to return for a further two-hour discussion, this time specifically on interviewing techniques.

2. Sometime during Calendar 1957, the final batch of files to be purged and integrated into the A&E files were sent by the Registrar. At long last, we have been able to complete purging of the files. The material removed from these files, plus certain other material we have been accumulating for destruction, amounted to about 75 cubic feet of material. Getting rid of this material will ease our filing space situation considerably, since the accumulation of new tests and research material had exhausted the capacity of our filing space.

3. [] has been working with [] of LAS on the planning and organization of "The American Overseas Course." In connection with this, [] are developing the section of the course which pertains to social psychological, sociological, and anthropological contributions to the understanding of foreign cultures and people.
